DESIGNED IN ITALY

HIGH QUALITY PROTECTOR PRODUCTION

Safe Tech is a dynamic company operating in the sector of protections for the world of sport, able to propose a **complete range of protectors made of a special polyurethane formula.**

In addition to the production site in Italy, Safe Tech has another in the south of China that is able to reply to the growing requests of the market, providing protection devices rapidly and at competitive prices.

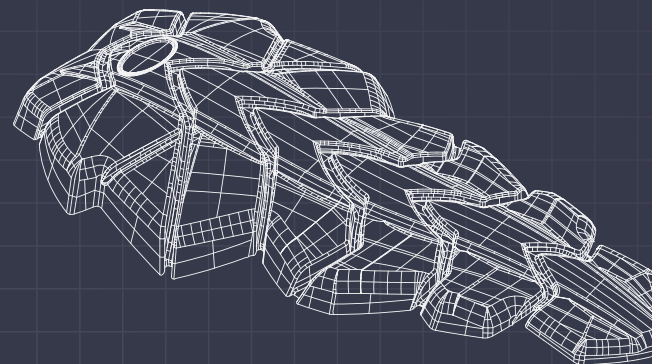

SAFE AND FREE EVERYWHERE

PRODUCT RANGE

For years, Safe Tech has been one of the **reference companies in the design and production of protectors** for the world of sport, and specifically for motor-cycling.

Born from the experience of a team of professionals in the sector, it offers clients a high-quality product, controlling the whole production process.

The production also includes many types of back protectors, characterized by **aggressive and dynamic designs**. Back protectors can be personalized with the type of finish and the brand of our clients.
